FLORENCE NIGHTINGALE

FOREWORD

Again the time is here when it is our pleasure and duty to express sincere thanks and appreciation for your valued patronage. It is most gratifying to receive your letters of satisfaction with the fine results obtained from our bulbs. We believe our endeavor "a satisfied customer is our best advertisement" has resulted in our ever increasing business.

In spite of the very hot, dry summer right in the middle of "show time" we have dug a bumper crop of the finest quality bulbs it has been our good fortune to have ever harvested. This was due in part to irrigation and the fall rains and a long, late digging season. This year we can stress quality as never before.

As is our practice, we have added several new varieties to our list and discarded some varieties that we feel have been superseded by better ones. We spend lots of time and money and give careful consideration in acquiring new varieties. We do not claim to grow all of the good ones as this is impossible with so many being introduced each year, but I am sure you will find our list contains a most comprehensive listing of the better ones. We believe — "only the best is good enough."

This year, especially, in view of our bumper crop and the fine quality of our bulbs, we would like to call to the attention of those who have not bought from us before, some salient reasons why it would be to their advantage to do so.

- This is our 27th Year. One does not keep in business year after year unless he gives satisfaction.

- Quality of Merchandise. Price can never take the place of quality, but when quality and price combine, it is a combination hard to beat. We think we have both.

- Quality of Service. We don't claim to never make mistakes, but we guarantee satisfaction and honorable dealing.

- Overcount. This may be an odd custom but it is a most satisfying one to the purchaser. We believe in giving you your money's worth.

- This Catalogue is our only salesman. You may receive better looking ones or smoother talking ones but none that will give you better bulbs or varieties.

Somehow, from all this, you may get the idea that we would like to serve you and prove we mean what we say.

Try us and see!

Sincerely,

A stylized, cursive signature that reads "Arenius".

UNLABELED COLLECTIONS OF ASSORTED GLADS

Many folks desire to plant glads in their garden for cut flowers, but do not care to fuss with the labeling of the different kinds. To satisfy this need we make up collections of named varieties but unlabeled. In making up an assortment of 100 bulbs we usually put in 3 bulbs each of 35 varieties listed in this catalog, thus being sure of a good color balance. However, if you prefer or dislike certain colors just let us know and we will act accordingly. If bought under name, the varieties in these collections, would cost several times as much. Our hundreds of repeat orders each year are proof of the wonderful results from these collections.

Our Rainbow Collection				Our Deluxe Collection

BACKYARD GARDEN SPECIALS

To extend your blooming season on each variety through a longer period of time we offer the following long blooming assortment. Each unit will consist of at least 4 large, 6 medium and 10 small of each variety. These will also give you a chance to see what wonderful blooms can be grown from the smaller size bulbs.

Each unit \$.70, any 5 for \$3.25, any 10 for \$6.00

Algonquin, Anna Mae, Attu, Bancroft Winsor, Beacon, Big Top, Black Opal, Blue Beauty, Bolero, Buckeye Bronze, Burma, Capsicum, Chamouny, Color Marvel, Cover Girl, Crinkle Cream, Daisy Mae, Dieppe, Dr. Whitely, Elizabeth the Queen, Ethel Cave Cole, Flagship, Francis M. Irwin, Gen. Douglas MacArthur, Glamis, Gold Dust, High Finance, High Life, Hollands Glory, Ivy Robertson, Je Maintiendrai, King Click, King Lear, King Tan, King William, Lady Jane, Lantana, Larimie, Lavender Prince, Lavender Queen, Leading Lady, Legend, Magnolia, Margaret Beaton, Margaret Peters, Marguerite, Maskerade, Max Reger, Mercury, Misty Dawn, Mohawk, Mother Kadel, Mt. Index, New Europe, Ogarita, Ohio non Pareil, Orange Gold, Oregon Gold, Parnassus, Pink Charm, Pink Radiance, Pioneer, Purple Robe, Purple Supreme, Red Charm, Red Rival, Revlon, Rosa van Lima, Salmons Glory, Snow Princess, Spotlight, Stoplight, Sunrise, Surfside, Tahlaneka, Valeria, Vincent van Gogh, Vulcan, White Fantasy, White Gold, W. R. Reader, Yangtze, Yellow Herald.

“... how pleased I have been with the rainbow collection of bulbs. It was almost unbelievable that they could give so much beauty over such a long period.”—Chicopee, Mass.

PLEASE READ CAREFULLY BEFORE ORDERING

Terms for Ordering — All orders cash with order or, 25% down payment, balance C.O.D. All C.O.D. orders require a down payment. All orders from the retail list will be sent postage prepaid. Orders from the wholesale list will be sent F.O.B., Springfield, Mass. If bulbs from both lists are ordered they will be sent F.O.B. and we will include enough extra bulbs to more than offset the express charges.

Orders for bulblets cannot be accepted after April 15th, for small bulbs (sizes 4, 5, & 6) after May 1st, and for large bulbs after June 1st. Orders for assortments can be accepted until July 1st.

Discounts — On all cash orders from the retail descriptive list — \$2.50 to \$10.00 — you may select 10% discount in bulbs of your own choice. \$10.00 to \$20.00 — you may select 15% discount in bulbs of your own choice. Over \$20.00 — you may select 20% discount in bulbs of your own choice. Discounts do not apply to new introductions, collections, or wholesale prices.

On cash orders from the wholesale list — 5% discount on orders from \$25 to \$100. 10% discount on orders over \$100.00.

Extras and Overcount — We give extras with all orders varying with the size of the order. Just mention some of the varieties you would like to buy and we will do our best to please you. We are noted for our generous overcount of number, quality, and size.

Guarantee — We guarantee satisfaction in every way possible. We attempt to send out only clean, healthy, true to name stock, and if in any way you are not satisfied let us know immediately and we will do our utmost to please you. Also if you are pleased we are always glad to hear from you.

Shipping Dates — Unless otherwise requested retail orders will be sent out between March 15 and April 15 in the order received. Wholesale orders will be shipped as soon as possible after receiving them. Order early so as to be sure we are not sold out of the varieties you want. This also gives us more time to fill your order with less chance of error and less overtime.

Bulb Sizes — The retail list contains three sizes —

Large, 1 $\frac{1}{4}$ " up Medium, $\frac{3}{4}$ " - 1 $\frac{1}{4}$ " Small, $\frac{3}{8}$ " - $\frac{3}{4}$ "

Large size bulbs give the largest bloom. However medium sized bulbs will give excellent spikes about 75% as large. Most small bulbs will bloom and at the same time grow fine bulbs for the following year.

Variety Listing — In the descriptive list the variety name is given first, followed by the originator's name, its show classification and the approximate number of days needed for it to bloom. We have attempted to give a description of the varieties as we see them, listing important faults as well as good points.

"I bought in last spring many new varieties including several different lots from you, and yours were the finest bulbs I received by a wide margin. Also I thank you for the generous treatment in extras and count."—Great Barrington, Mass.

"Your generous overcount, plus the valuable extras, amazes and pleases me extremely."—Binghamton, N. Y.

"The glad bulbs . . . arrived March 15. To say that I am pleased with them is to put it mildly. They are the finest lot of bulbs that I have ever bought in over ten years."
 —Rockville, Conn.

FAVORITES OF 1949

Here are four lists of varieties representing each person's favorite ten as they saw them this year. Mrs. Arenius and Helen (Mrs. Art, Jr.) both have seen all the varieties in our field as well as at the many shows so are well qualified to comment. They have the added advantage of liking a glad only because to them it is the most beautiful without the influence of statistics such as the size, number open, number of buds, height, etc.

GLADIOLUS SEEDS

More and more glad growers are getting a kick out of growing glads from seed. This is a very interesting hobby as each seed produces a brand new variety; and with seed selected from good parentage, many worthwhile seedlings may be expected.

The seeds which we offer you are exceptional in that they have been selected from the best and newest of named gladiolus, as well as from our most promising and vigorous seedlings which have not yet been introduced; in fact, these are the seeds which we plant ourselves.

We assure you that keeping records of the sources of these seeds would be a laborious and costly procedure, which would not improve their quality one iota. So, to keep the price low, we are offering them to you in unnamed, mixed lots.

Furthermore, a package of these mixed seeds assures you of a far greater variety of colors than you would receive from a packet of seed from only one cross.

A generous count of 35 seeds for \$1.00 Six packets for \$5.00. Complete planting instructions on each packet.

FOR THE COMMERCIAL GROWER

We are frequently asked what we consider the best varieties to grow for commercial cut flower uses. This list contains the leading varieties among the low priced group as well as many of the newer ones that we believe will soon supplement them. All in this list can be grown with confidence and the knowledge that your blooms will be of the finest available. Varieties marked * we consider the best for shipping purposes.

WHITE — EARLY — Anna Mae, Mt. Index, *Snow Princess, *White Fantasy, Texas. **MIDSEASON** — Ariadne, *Florence Nightingale, Margaret Beaton, Margaret Peters, Roosevelt's Memory, *Silver Wings, *Snow Flurry. **LATE** — *Surfside.

CREAM — EARLY — *Salmons Glory. **MIDSEASON** — Connie G., Lady Jane, *Leading Lady. **LATE** — *Oriental Pearl.

YELLOW — EARLY — Gold Dust, *Mother Kadel, *Yellow Herald, Van Gold. **MIDSEASON** — Crinkle Cream, Golden State, Kathy Lee, Klondyke, Maskerade, Manchu, Martha Deane, *Spotlight, Tahlaneka, Yangtze. **LATE** — Oregon Gold.

BUFF — MIDSEASON — Gold Standard, Patrol, Sunlight, *Sunspot, Susquehanna.

ORANGE — EARLY — *Lantana. **MIDSEASON** — Bancroft Winsor, All Glory, Bikini, Henri de Grieve, Janet Lee, *Daisy Mae, *Orange Gold, Trocadero. **LATE** — 'Larimie.

SALMON — EARLY — W. R. Reader, Vincent van Gogh. **MIDSEASON** — *Bloemfontein, Capsicum, *Dieppe, Glamis, *King William, *Picardy, King Alfred, Palisades, *Prosperity, *Spic and Span, *Pioneer. **LATE** — Ogarita, Victory Queen.

SCARLET — EARLY — *Valeria, Red Rival. **MIDSEASON** — Algonquin, *Beacon, Carnival, Mercury, Mountain Gem, Red Wing. **LATE** — *New Europe.

PINK — EARLY — June Day, *Skyway, Ethel Cave Cole, Gen. Doug. MacArthur, Invictus, *Pink Charm. **MIDSEASON** — *Beauty's Blush, Bernard Shaw, Big Top, Cover Girl, Legend, *Evangeline, *Magnolia, *Pink Radiance, Phantom Beauty.

RED — EARLY — Red Cherry. **MIDSEASON** — *Birch Red, Cherbourg, Intruder, Nancy, Mohawk, Ohio non Pariel, Red Charm, Royal Windsor, *Stoplight. **LATE** — Black Opal, King Click.

ROSE — EARLY — Rosa van Lima. **MIDSEASON** — *Bernadette Boulogne, Burma, Chamouny, Francis M. Irwin, Miss Wisconsin, Modern Times, *Tivoli, Preview, Venida, Topflite.

LAVENDER — EARLY — Huntress, Abigail. **MIDSEASON** — *Elizabeth the Queen, Benjamin Britten, *Lavender Prince, Lavender Queen, Peggy, *Siboney, *Parthiena.

PURPLE — EARLY — King Lear. **MIDSEASON** — Dorothy Armstrong, Margaret Wood, *Vulcan, Sherwood. **LATE** — *Purple Supreme.

BLUE — EARLY — Blue Beauty, *Max Reger, High Life. **MIDSEASON** — Blue Bonnett, Blue Lagoon, Ravel.

SMOKY — MIDSEASON — Buckeye Bronze, Dusty Miller. **LATE** — *High Finance, Misty Dawn.

VARIETY COMMENT

FLORENCE NIGHTINGALE impressed us this season as being the finest all around white for every purpose. It is excellent for show purposes, as witness its winnings, and undoubtedly will become a leader as a commercial. It has size, height, and health and is a good propagator. We have not seen enough of NOVA ZEMBLA and SWING from large bulbs but they look very promising from medium bulbs. STRATHNAVER and WHITE WINGS are fine show glads. SNOW FLURRY seems a shade whiter than WHITE WINGS and with us the bulbs are healthier. ROOSEVELT'S MEMORY and TEXAS are among the tallest whites and strong vigorous growers and propagators. WHITE CHRISTMAS is the most ruffled white but does not always place well. SNOWFLAKE is a pure white of medium size. In the blotched whites the new FREEDOM looked very fine. The old favorites ARIADNE and MARGARET PETERS are still favorites. Those that complain that glads are too stiff for arrangements, try MARGARET PETERS. WHITE FANTASY is the earliest white with us.

The standout cream glad is undoubtedly CONNIE "G". It makes a very imposing spike of ruffled and fluted florets. Of course LEADING LADY is still the champ show winner and leading commercial. One of the surprises of the season was JOE STALIN which easily grew six feet tall and made huge spikes even surpassing the older ORIENTAL PEARL. The new HELEN EAKIN looks like an improved LADY JANE. SALMONS GLORY, SPARKS, and SINCERITY are all fine blotched varieties.

The yellow class which a few years ago had no outstanding varieties has in recent years been augmented with several most promising introductions. With us three varieties stood out, ROBERT ALAN, SUNDANCE and LANCELOT. All are different and have some outstanding qualities. ROBERT ALAN has the cleanest, smoothest color, a medium deep yellow, with up to eight open on a very tall stem. SUNDANCE is taller and more robust growing, and a lighter yellow. LANCELOT is paler than the other two but still has sufficient depth of color and seems the best propagator. We will have to try them another year to determine which we think best, but any one of them is a real addition. Of the European varieties BELLE JAUNE and ELDORADO and GOLD RUSH were grown only from medium bulbs and looked promising. KATHY LEE is tops with us and we think it will become a good commercial because of its beautiful color and ruffling. In the yellows with a blotch PERDITA is very striking although only of medium size. Of course SPOTLIGHT is the top commercial yellow now that the price has come within the commercial range. MANCHU and MASKERADE are also very fine blotched yellows. For commercial growing we recommend CRINKLE CREAM, GOLD DUST, GOLDEN STATE, JAVA, MOTHER KADEL, OREGON GOLD, YANGTZE, and YELLOW HERALD.

In the buff shades PACTOLUS was the most outstanding with its large deep blotch and nice placement of eight open blooms. Of the older

ones still hard to beat are ATHLONE, HELEN OF TROY, PATROL, SUNLIGHT, and SUNSPOT. This class now has some very fine varieties.

The orange class has grown in recent years and now comprises a strong class at the shows. The new CIRCE, HENRI DE GRIEVE and HUAHUNA look very promising. The Australians ALL GLORY, QUIBERON, and SUNKIST will also be heard from and win in this class. CHIEF PONTIAC will be hard to beat. Commercially DAISY MAE, LANTANA, and ORANGE GOLD are the best sellers.

Of the new salmons the most outstanding are GORGEOUS DEB, a very beautiful clean salmon opening up to ten well-placed blooms, MAJESTIC, a new Australian that was quite imposing, PALISADES which opens nearly all of its large blooms on a tall spike, and POLYNESE, a new European variety that has a nice clean color and opens up to ten blooms. They all have the ability to open many blooms, but will have to see them another year to evaluate them better. However, they will have plenty of competition from such proven varieties as A. L. STEPHEN, BOLDFACE, DIEPPE, KING ALFRED, PICARDY, PROSPERITY, SPIC AND SPAN, and VICTORY QUEEN, all of which win blues at the shows.

The scarlet class has one outstanding addition in RED WING which opens many well-placed blooms of a nice color on a long spike. This is truly a great glad and destined to go places. Of the older varieties that performed well are ALGONQUIN, CARNIVAL, with its large cream throat for contrast, MOUNTAIN GEM, a most robust grower, TARAWA, the clearest and perhaps most beautiful scarlet, and of course VALERIA which is more widely grown than all of the other scarlets combined.

The ones that impressed us most in the long, pink class were BERNARD SHAW, a vigorous, tall, deep pink which seems to possess great possibilities, BOISE BELLE, a bicolored pink and yellow, EVANGELINE which in spite of its misplacing is very outstanding in every other respect, LORAINÉ, a very beautiful pink, and SKYWAY, the most promising early commercial prospect. Of course in any listing of outstanding pink glads we cannot omit such varieties as BEAUTY'S BLUSH, CONNECTICUT YANKEE (still winning grand championships), COVER GIRL (Grand Champion at Binghamton), LIPSTICK, MAGNOLIA, MARION PEARL, PHANTOM BEAUTY, and YANKEE LASS.

Of the reds that performed well this past summer are RED CHERRY and NEW AMSTERDAM, but we believe they are no better than some of the older ones that have proven themselves, such as BIRCH RED, FIREBRAND, GRACIE ALLEN, MANSOER, MID AMERICA, NANCY, RED CHARM, RED RASCAL, and ROYAL WINDSOR, all of which are tops in the red class. MID AMERICA is the largest but the new European NEW AMSTERDAM will give it competition. RED CHERRY looks like a coming commercial. For clean, clear color it is hard to beat FIREBRAND, GRACIE ALLEN, and BIRCH RED. MANSOER makes a fine exhibition spike. RED RASCAL is the best ruffled red. RED CHARM and ROYAL

WINDSOR have won so many blues at the shows that they need no comment.

In the dark reds BLACK KNIGHT is impressive. MRS. R. G. ERREY has been tops in Australia for several years. TOBRUK, a new European, looked very good as did VELVET MANTLE. DRAGONS BLOOD and PAUL ROBESON are fine and of course MOHAWK is used in limited quantity commercially.

In the rose class two Europeans stood out, TIVOLI, an improved ROSA VAN LIMA, and GENERAL EISENHOWER which proved a pleasant surprise as a medium rose opening many blooms on a tall straight spike. Of course in a deeper rose MISS WISCONSIN is still tops although the newer GIANT CYCLAMEN from Australia looks as if it will give competition. In the light rose section we think TOPFLITE is tops for sheer beauty and the bulbs and growth seem to be getting healthier each year. MODERN TIMES is a bright rosy red, distinctly different, which we like very much. We cannot overlook such sterling performers as BUENA VISTA, BURMA, CHAMOUNY, PREVIEW, and VENIDA. CRINKLES and LILA WALLACE make wonderful glads for arrangements.

The lavender class has been augmented by W. H. HOSMER which opened eight nicely spaced blooms on a medium spike. PARTHIENA again this year kept up its winnings at the shows and certainly will become an outstanding exhibition variety. It is a very fast producer of bulblets. PATRICIAN has good color but there is some question about the health of the bulbs although ours look fine. BENJAMIN BRITTEN, a little lighter in color than LAVENDER PRINCE and not as large, looks good as it opens eight to ten blooms on a tall spike. SIBONEY also surprised us this year with some real fine spikes. The depth of color certainly should make it a useful florist variety. HIGHLANDER, although not new, gave us some of the nicest lavender spikes we have ever seen. PEGGY always blooms tall and straight and never flecks. It goes over big with the florists. LAVENDER PRINCE has proven a good shipping glad. WEDGEWOOD is without a rival for arrangements and just about the nicest, cleanest color in the lavenders. For commercials we use such standbys as ABIGAIL, ELIZABETH THE QUEEN, HUNTRESS, for early blooms, LAVENDER QUEEN and MINUET.

SHERWOOD seems to be the best of the new purples and together with DOROTHY ARMSTRONG and PURPLE SUPREME comprises a trio hard to beat. ELEANORA usually wins at the shows as the flower with the most open florets. The giant of the purples is RIDGELEY although the color could be clearer. MARGARET WOOD also makes a very large florets but they are quite often misplaced. KING LEAR and VULCAN are useful commercially in a limited quantity.

In the so-called blues or violets BLUE BONNETT has proved to be a very fine medium blue of large size and may be the best in this shade. RAVEL is an improvement on BLUE BEAUTY as it opens up to eight

well-spaced blooms on a tall spike. When stock becomes more plentiful it will undoubtedly become the leading commercial. In the light blues LIBRETTO looks promising. ABU HASSAN has a beautiful deep pansy blue color but does not seem healthy enough to be grown extensively. In the deep blues BLUE LAGOON has a nice color and grows tall. It is healthy both as to plant and to bulb. For commercial use we like BLUE BEAUTY, HIGH LIFE, and MAX REGER.

Of the new smokys and the class called "any other color" which we grew this year we liked ADVENTURER, STORM KING, WAHOO, and CHOCTAW. The first two are Australian and make a typical show spike. The last two are typical Wilsonian spikes with long flowerheads into which has been worked the brown shades with a red blotch. Both are quite striking and worthwhile. BRONZE KING was very outstanding and the color is a smooth even bronze instead of a mixture of colors usually associated with the smokys. DUSTY MILLER to us is a pleasing old rose smoky that grows tall. TUNIAS MOHAMET is proving a favorite with many because of its plum rose color and orange in throat and immense size. It sometimes makes seven inch florets and has up to eight open. FLYING FORTRESS is another breath-taking smoky in a gray tone that can open up to twelve florets at a time. If you are looking for something entirely different, something bizarre, try ROLLA and ROBINSON CRUSOE. In the deep browns and chocolate shades we like ATTU, TONY and UNCLE TOM. There is a certain demand for smokys commercially and for this purpose we use HIGH FINANCE, MISTY DAWN, MOTHER MACHREE, BUCKEYE BRONZE, and VAGABOND PRINCE which are generally liked by the public.

"The bulblets you sent us some time ago are making the best growth of all our bulblet trials, purchased from a number of different places."—Castle Hayne, N. C.

"The gladiolus bulbs have been received in fine condition. Thank you for your generosity in extras and overcount."—Middlebury, Conn.

"After receiving the extra of TOPFLITE, it took one several days to come down off the clouds."—Wallingford, Conn.

NEW INTRODUCTIONS FOR 1950

SUNDAY BEST (Pletscher)

For 1950 — “Sunday Best” — the glad with a great commercial future. A tall consistent and vigorous grower producing 100% cuttable spikes. Its sparkling clear light lavender rose color blending to a rich creamy throat makes it an immediate hit with every one. “Sunday Best” opens to the last bud when cut tight and has proven itself as a shipper. We feel that “Sunday Best” will become a must have for all cut flower growers and shippers and we take pride in introducing it. On the show table it will soon become a consistent winner.

VITAL STATISTICS — A clear light lavender rose blending to a rich creamy throat much on the shade of apple blossoms when they first open. Opens 6 to 8 consistently well placed blooms up to 5½" in size. No crooking, flecking or misplacement. Attachment is very good. Unusually healthy and vigorous with heavy propagation and germination. Flower head of 25" to 30". Makes fine spikes from # 5's and 6's.

FOR YOUR VERY BEST GROW “SUNDAY BEST”

PRICES —

Retail — Large \$5.00—Medium \$4.00—Small \$3.00—Bulblets \$1.00 each.

GROWERS UNITS — ½ Unit at ½ Price —

\$100.00— 5 Large - 10 Medium - 25 Small - 100 Bulblets.

\$500.00—35 Large - 75 Medium - 200 Small - ½ pint Bulblets.

\$25.00—trial offer to growers: 3 Large - 3 Medium - 4 Small.

FROM J. R. AND C. T. LARUS

HAMLET

“To be or not to be, that is the question.” And we think that Hamlet is destined to be one of the leading show glads in its color.

Hamlet is a lovely dark red self with no markings. The florets are somewhat waved and wide open with heavy substance. Hamlet has an absolutely clear color that catches the eye. Florets are strongly attached and the placement is excellent.

Grows 50" - 55" tall with 16-17 buds on a 23" - 27" flowerhead and opens six 5" - 5¼" florets. Hamet has very regular growth habits and practically all spikes from medium and large bulbs can be used. A good propagator and has always been healthy

Has won three Awards of Commendation, three Awards of Merit, has been Best Seedling three times, and was a two day winner in the color classes at the Connecticut Show. This year received Awards of Merit from,

Western Massachusetts Gladiolus Society,
Eastern New York Gladiolus Society,
and Connecticut Gladiolus Society

Based on its performance as a seedling, Hamlet should become a reliable winner at the shows and is a fine commercial prospect—opens when cut in tight bud. The stock is fairly small.

Prices for 1950—Large \$5.00—Medium \$4.00—Small \$3.00—Bulblets \$1.00 Each

Growers Units—5 Large—5 Medium—10 Small and 100 Bulblets \$50.00

FROM CHAMPLAIN VIEW GARDENS

LODESTAR (Palmer)

INTRODUCERS DESCRIPTION —

Class 412. Early medium yellow shading to a deeper lip. Very beautiful. Somewhat ruffled. Medium height. Opens 5-7 well placed blooms on a head of up to 18 buds. Good attachment. I don't know of a prettier yellow. Good propagator. Fine cut flower variety. Stands heat well.

Price per bulb any size \$3.00 each. No bulblets.

ESQUIRE (Ficht)

INTRODUCERS DESCRIPTION —

Class 536. Color is a brilliant scarlet with a dusting of gold. Large blooms sometimes reaching 7 inches with 7-9 open, with a total of 20-24 buds and with a head of up to 28 inches. Mr. Ficht has had 12 open but this is not usual. Plant grows tall, 5-5½ feet, straight and strong. Good placement and attachment. 9 wide leaves appear before it spikes. Very good propagator. Received a silver certificate in the Canadian trial grounds. Does not fade in the sun. This looks like a fine addition to the scarlets. Due to a fair stock we are making the introductory price very low.

\$1.00 each for any size. I think this is the biggest dollars worth you ever got in a new introduction.

MADELINE HEFTY (Ted Woods)

INTRODUCERS DESCRIPTION —

Class 556. This is a ruffled lavender that is going places. A beautiful rose lavender shading to a deep rose at the edge with a darker rose marking on the lip. The plant is a very easy grower getting up to 4½ feet and over, sometimes reaching 5 feet. Blooms are up to 5½ inches with up to 10 open and 8 showing color. Good substance, good placement and attachment. A willowy stem that is not weak and not too stiff. Fine propagator. Good shipper and opener. An American Home Achievement winner. This is bound to be a very popular variety.

Price per each \$5.00, \$4.00, \$3.00. For large, medium and small. With bulbs may be had 10 selected bulblets for \$4.00.

MACUSHLA (Paul)

INTRODUCERS DESCRIPTION —

Color is bengal rose by the English color chart. This is a beautiful new shade somewhat like Topflite but better and is bound to be extremely popular. There are diffused darker lines feathered on a cream throat which makes it even more beautiful. It opens 6-7, 4½-5 inch florets on a tall straight spike of 20-21 buds. Very good placement and attachment. Opens well in water and is a good shipper. This variety really should go places.

Price — \$3.00 each any size.

Two Outstanding Recent Introductions

PARTHIENA (Hitchcock - 1949)

This striking deep mauve lavender is fast becoming the outstanding introduction of 1949. Opening 7-9 huge lightly ruffled blooms on a strong spike it presents an eye catching array of color. This year's show record included Grand Champion single spike at Boston, Grand Champion vase at Binghampton, and at least five other blue ribbons in its class.

The color is a deep mauve lavender with a darker throat tongue on a faint cream background. Field height 50" - 55", flowerhead 24" - 28", 7-9 open, 5-8 showing color, size up to 6½", placement good, 85-90 days to bloom. Extremely healthy making 30-50 large bulblets per bulb that germinate almost entirely. With the florists it has been an immediate hit and it opens to the tip when cut in bud.

We feel that Parthiena will soon be grown by everyone as soon as they see it both commercially and for the show table.

SKYWAY (Dr. Stevens - 1948)

We feel that Skyway will soon become the leading early cut flower pink. Its tall easy growth, fine cutting qualities, and earliness has created a demand far in excess of the small stock.

Skyway is a beautiful clear light pink shading to a light creamy throat. It opens 7-8 5½" blooms of very good placement and attachment on a consistent and straight 65" spike. Its health and increase are excellent and it has proven a good shipper. On the show table Skyway will soon rank with the best in its class.

BENJAMIN BRITTEN (K&M) (466) 80						
Strong growing healthy deep mauve lavender. One of the best from Holland. Opens 8 blooms on a tall consistent spike. Although the color could be clearer, it is a fine commercial.	1 10	2.50 20.00	2.00 16.00	1.50 12.00	1 10	.25 2.00
BERNADETTE (Silva) (560) 85						
Another Picardy sport of excellent quality. Color is light rose blending to a light throat. Strong healthy grower.	1 100	.40	.30	.20	10 100	.25 1.50
BERNARD SHAW (K&M) (440) 85						
Clear pink with carmine feathering. Similar to and I think, better than Gen. Eisenhower. Opens 6 to 8 very large blooms with good placement.	1 10	2.00 16.00	1.25 10.00	.75 6.00	10	2.00
BIG TOP (Rich) (541) 85						
Huge medium pink with dark throat marks. Opens 8 to 9 large blooms on a six foot plant. One of the largest and tallest glads.	2 10	.20 .80	3-.20 .50	5-.15 .25	Pkg.	.25
BIKINI (Lins-Ruble) (424) 90						
Brilliant orange with a deep orange throat. Good growth and cutting habits. Opens 7 on a tall spike.	1 10	1.25 10.00	.75 6.00	.40 3.20	4 10	.50 1.00
BIRCH RED (Rich) (452) 85						
Sparkling pure deep red. Finest color in the deep reds. Opens 7 large well placed blooms on a tall strong plant. Highly recommended as a cut flower.	1 10	1.00 8.00	.75 6.00	.50 4.00	10 100	1.50 12.00
BLACK OPAL (Errey) (354) 95						
Tall late blooming black red. Opens 10 blooms on a tall plant. Widely grown.	2 10	.20 .80	3-.20 .50	5-.15 .25	Pkg.	.25
BLOEMFONTEIN (K&M) (430) 85						
Tall salmon pink with a soft yellow throat. Opens 7 large blooms on a tall strong plant.	2 10	.20 .80	3-.20 .50	5-.15 .25	Pkg.	.25

	Per	Large 1 1/4" up	Medium 3/4"-1 1/4"	Small 3/8"-3/4"	Bulblets Per	
BLUE BEAUTY (Pfitzer) (476) 80						
The standard blue cut flower and show winner. Opens 5 to 6 large blooms on a tall plant.	2 10	.20 .80	3-.20 .50	5-.15 .25	Pkg.	.25
BLUE BONNETT (Bearchmore) (576) 85						
Here is the best new blue we have seen. Opens up to 7 very large blooms on an average height plant. Placement, attachment and health good. Color very near to the old Max Reger. Recommended.	1	3.00	2.50	2.00	1	.30
BLUE LAGOON (Snyder) (476) 80						
Strong growing deep violet blue. Opens 6 to 8 large well placed blooms on a tall plant. Very healthy and vigorous.	1 10	.75 6.00	.50 4.00	.35 2.80	10 100	.50 4.00
BOISE BELLE (Roberts) (343) 95						
Very unusual and beautiful combination of yellow with pink picotee edgings to the outer part of the petals. Opens up to 12 heavily ruffled blooms on a tall spike. Good grower.	1	—	1.50	1.00	2 10	.45 1.75
BOLDFACE (Evans) (533) 85						
Bright crimson pink with a dark red blotch on a red throat. Opens 8 to 10 large well placed blooms on an average height plant. A good spike is outstanding.	1 10	1.25 10.00	.75 6.00	.50 4.00	2 10	.25 1.00
BOLERO (Leffingwell) (525) 85						
Unusual and distinctive smoky orange with a brownish red blotch. Opens 6 to 8 ruffled blooms on a medium plant. Odd and beautiful.	2 10	.20 .80	3-.20 .50	5-.15 .25	Pkg.	.25
BOULOGNE (Salmon) (562) 85						
Excellent deep wine red. Opens 8 large blooms on a husky plant. If you like the dark colors try this one.	2 10	.20 .80	3-.20 .50	5-.15 .25	Pkg.	.25
BRONZE KING (Rich) (582) 95						
Lightly ruffled bronze colored glad of show winning caliber. Opens up to 8 well placed blooms. Consistent and strong grower. The best bronze smoky.	1 10	.50 4.00	.40 3.20	.30 2.40	10 100	.40 3.20
BUENA VISTA (Pruitt) (562) 100						
The tallest and largest deep rosy red glad grown. Opens 8 to 10 blooms on plants that often go over 6 feet.	2 10	.20 .80	3-.20 .50	5-.15 .25	Pkg.	.25
BURMA (Palmer) (562) 85						
Ruffled deep rose that is one of the top show winners. Opens 8 to 10 heavily ruffled blooms on a medium height plant. A must have for the home gardner and exhibitor.	2 10	.20 .80	3-.20 .50	5-.15 .25	Pkg.	.25
CAPSICUM (La Salle) (432) 85						
Deep La France pink with pink pepperings on a cream throat. Opens 8 well placed blooms on a tall strong plant. Fine commercial. Have had many fine reports on this unusual glad.	1 10	.15 1.20	2-.20 .80	5-.25 .40	Pkg.	.25
CARNIVAL (Butt) (437) 85						
Bright scarlet with a clear white throat. Opens 10 on a fine spike. Good grower and an improvement on Flagship.	1 10	.40 3.20	.30 2.40	.20 1.60	10 100	.30 2.40

"Bulbs received from you last year were extra fine and my crop was excellent."
—Logansport, Ind.

CARE AND CULTURE

(Complete planting instructions will be included with each order)

SOIL AND FERTILIZER

Glads do well on most any soil if they are planted in the open garden where there is plenty of sunshine. You may work well rotted manure into the soil in the Spring by putting it into the bottom of your planting trench, then covering with an inch of soil; then planting your bulbs. Vigoro is also good. Two or three applications of commercial fertilizer may be made on the surface along the rows during the growing season before the plants bloom. Any fertilizer should be kept from direct contact with the bulb or foliage. If you wish to grow immense spikes, you must fertilize heavily; your plants must also have at least an inch of water every three or four days.

PLANTING

Work soil to a depth of eight inches, or ten inches will be better. Large bulbs should be covered with about six inches of soil. The deeper planting helps keep them upright when blooming. Smaller bulbs should be planted not less than two inches. You may regulate your distance apart in the row by the space you have. Plant rows anywhere from 2 ft. to 3 ft. apart. Plant in rows from two to six inches apart, depending on space and number of bulbs. They do well planted close together, but require more water.

DIGGING AND STORAGE

Our early stock is taken up in early October. The bulbs should be taken up within six weeks to two months after blooming but before the tops begin to get brown. Even if the tops are green, bulbs should be taken up before the ground freezes deeply. After digging, cut off the tops close to bulb and put in screen bottomed trays to cure. They should have plenty of ventilation while curing and must not be put in containers more than three or four inches deep. At this time Naphthalene flakes (procured from your druggist) may be safely scattered on the bulbs which are dormant. Use at the rate of an ordinary handful per 100 bulbs. A little more or less won't do any harm and it will drive away any thrip that may be harboring an idea of wintering on your bulbs. By the time you are ready to clean the bulbs most of the flakes will have evaporated. A note of warning! DO NOT use them in the Spring when the root nodules appear at the base of the bulb, as they are harmful and prevent normal growth of the plant. Use them right after digging or early winter. Stir them every few days and keep dry. In four weeks they will be cured so that old bulbs may be removed from the bottoms. They may then be placed in storage. Proving very effective as a thrip control in storage is a light dusting of 5% DDT powder. This is very good if the bulbs do not have to be handled during storage as DDT powder is poisonous.

The storage temperature is best at 40 to 50 degrees. Your storage room should be dry, cool and ventilated and as near uniform as possible as to temperature. It is well to look at your bulbs every two or three weeks. If they show signs of too much moisture or look mouldy, dry them out and give better ventilation. Keep them in small containers and spread thin.

THRIP AND DISEASE CONTROL

With the advent of D.D.T. as a dust or spray for thrip on gladiolus the problem has become of minor importance. A few dustings or sprayings after the plants are about 8-10 inches high will eliminate all trouble from that source.

DDT Spray

2 rounded teaspoonfuls DDT (50% wettable). 1 teaspoonful Dreft. 2 gallons of water. Spray every 8-10 days till glads begin to bloom.

DDT Dust

Use 3 or 5% dust. Preferably use a dust also containing a good fungicide. Dust lightly every 8-10 days till glads begin to bloom.

BULB DIPS

As a disease preventative for bulbs. We recommend this as a precaution both for your old bulbs and new bulbs no matter where obtained.

Dips for Control of Thrips and Disease

BICHLORIDE of MERCURY — 1 oz. Bichloride of Mercury. 7 gallons of water. Soak 10 to 12 hours immediately preceding planting. Plant wet. Must be used in an earthen or wooden container.

LYSOL — 1 tablespoonful of Lysol. 1 gallon of water. Soak 4 to 6 hours immediately preceding planting.

NEW improved Ceresan — 1 oz. of N. I. Ceresan. 3 gallons of water. Weigh carefully and leave bulbs in solution 15 minutes. Do not leave bulbs in solution over 20 minutes and be sure to plant immediately after dipping.

JOIN A GLADIOLUS SOCIETY

There are gladiolus societies in nearly all localities of the country composed of glad fans of all degrees — from the backyard gardener with a few bulbs to the commercial grower with his many acres. With them you may receive the benefit of their publications with the most up-to-date information of all kinds pertaining to gladiolus, good fellowship at their shows and meetings (who else can fully appreciate that 8" bloom in your garden?), and a chance to test your growing skill at the many gladiolus shows.

NORTH AMERICAN GLADIOLUS COUNCIL — Now the leading National Society — Sec'y, Leo Mathews, 2730 Lockburn St., Indianapolis 21, Ind.

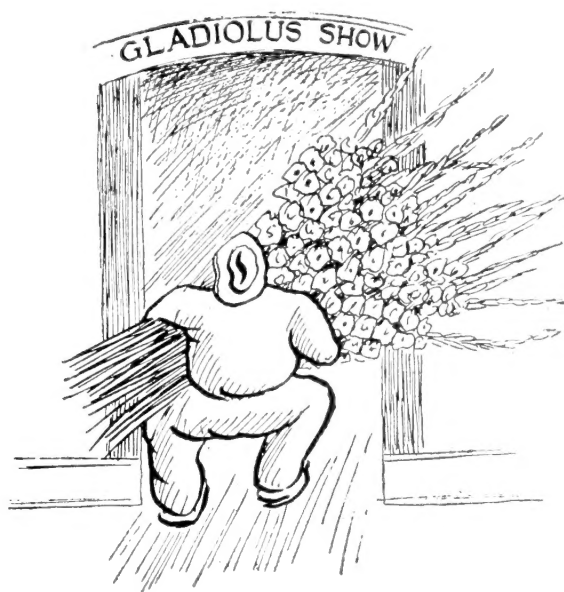

CONN. GLADIOLUS SOCIETY — Mr. George Seimsen, 73 Horton Rd., Manchester, Conn.

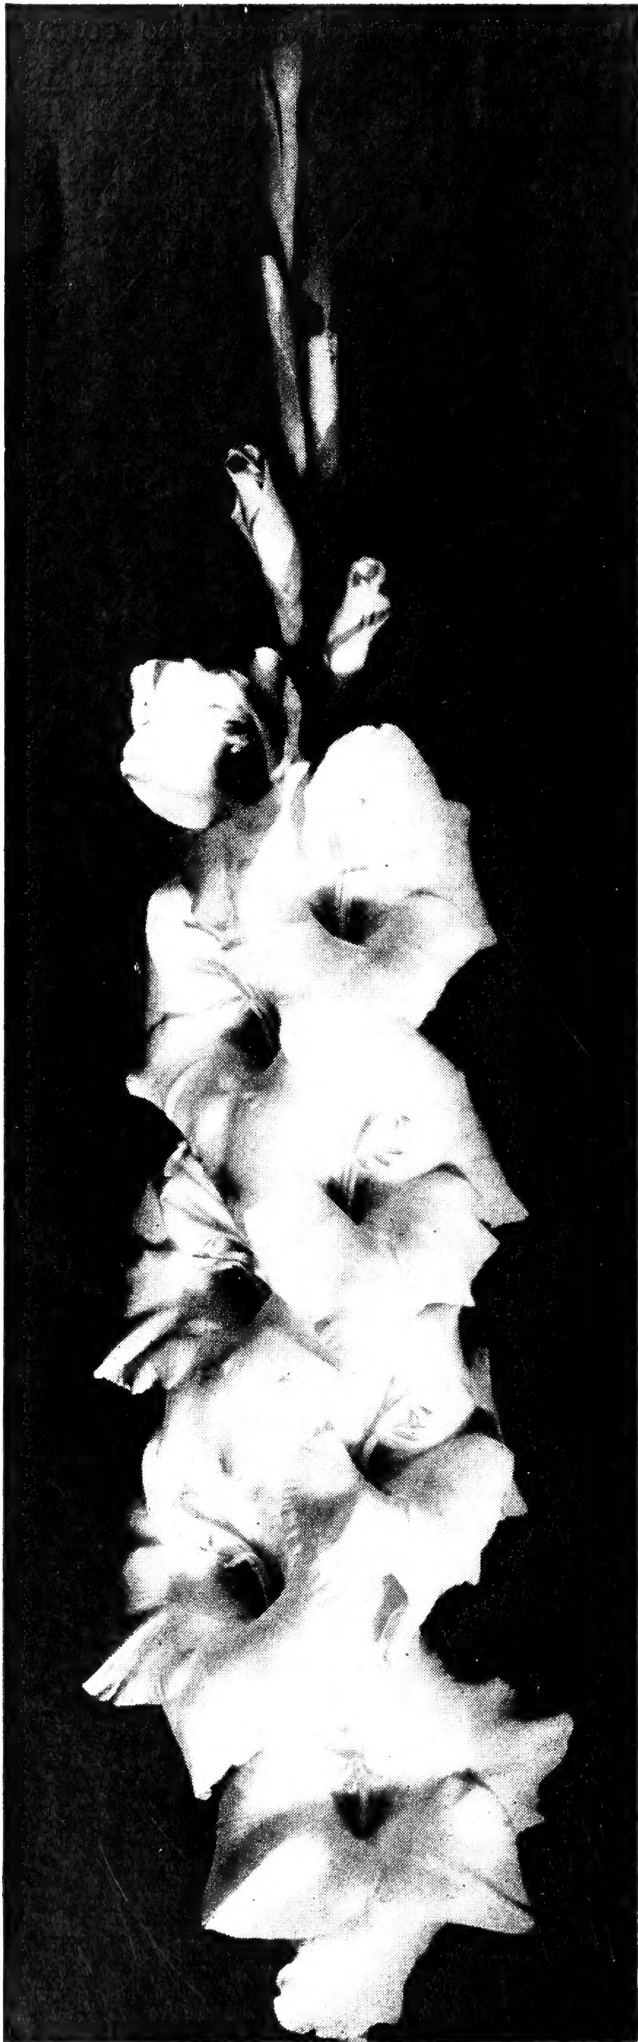

EASTERN NEW YORK GLADIOLUS SOCIETY — Mr. Lee M. Fairchild, 7 Hillside Ave., Mt. Kisco, N. Y.

RHODE ISLAND GLADIOLUS SOCIETY — Mr. Roy W. Barber, Peace Dale, R. I.

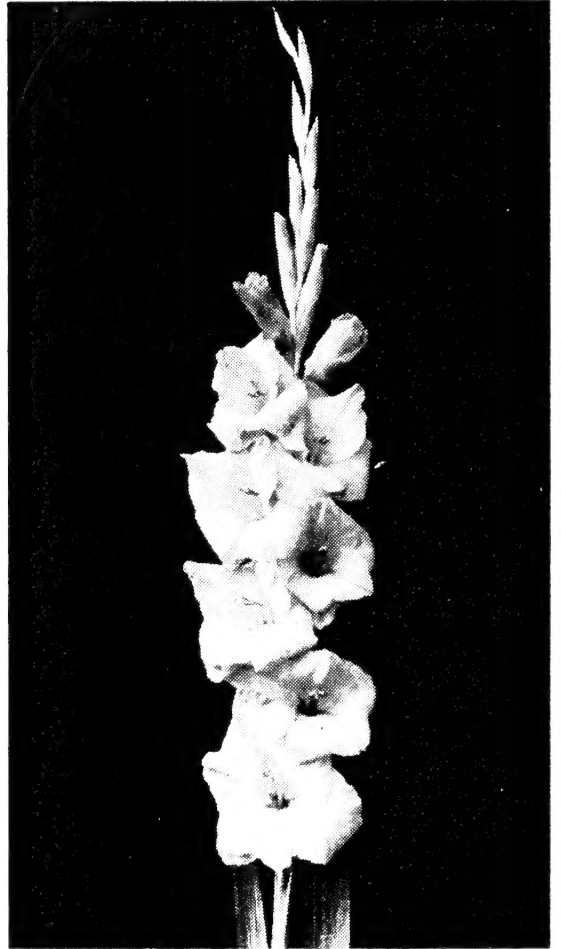

WESTERN MASS. GLADIOLUS SOCIETY — Mr. Norman A. Waldron, West Street, Ludlow, Mass.

MAINE GLADIOLUS SOCIETY — Mrs. M. J. Walenta, South China, Maine.
